Outdoor Gym Equipment for Primary Schools
Welcome to Red Monkey Play

Cast your mind back to your school days – those carefree lunchtimes running around the playground and setting your imagination free.

Here at Red Monkey Play, we’re passionate about bringing those fun times to today’s younger generation. Our range of bespoke gym equipment encourages primary school children to develop key skills and keep active, whilst having fun at the same time.

Read on to find out more about our products and the Red Monkey Play mission.
Our Mission

Education and enjoyment are at the forefront of everything we do here at Red Monkey Play. We believe that playtime is an important part of a child’s time at school and that they should have the perfect place to express themselves.

Installing outdoor gym equipment is easier than you might think and our products are unique to your school and pupils. We encourage pupils to get involved in what equipment they want - after all, they will be the ones using it!

It’s not just playground equipment that we’re passionate about – we also believe the playground can be a great place for children to learn new skills and develop the ones they already have. With over 20 years’ experience, there’s nothing our team can’t accomplish.
Why you should consider outdoor gym equipment for your pupils

Our outdoor gym equipment will give your pupils a fun space to enjoy outside of the classroom, and also provides a great way of using your PE and Sport Premium Funding. Not only are pupils encouraged to orientate their activities to help improve their health, the school’s use of the funding will raise standards of learning and achievements in sports, which helps the long lasting legacy in your school of improving children’s health routine.

**Physical development and exercise**

Children are bundles of energy! Running, jumping and climbing are what they do best and our playground equipment gives them the perfect place to release all of that energy.

Children’s exercise and activity is more important today than ever. By giving pupils a fun and engaging space to be active, our gym equipment makes fitness fun!

**Challenging to build confidence**

Building confidence is an important part of growing up. Outdoor gym equipment enables primary school children to not only challenge themselves but their classmates as well.

Children love to show off and gym equipment gives them the chance to do just that. Why not set your pupils a challenge during PE and see who is top of the class?

**Fun activities all-year round**

We believe that every day should be a fun day for primary school children. Our gym equipment is designed to be durable and long-lasting, with endless opportunities! From small pieces through to large climbing walls, outdoor equipment designed by Red Monkey Play gives children an enjoyable way to learn the skills they’ll need later on in life.

Our equipment can be used as part of a PE lesson or as a way to encourage group play. By helping with a pupil’s physical development skills, outdoor spaces like our climbing frames can make fitness a fun activity for the whole class!

**Putting safety first**

Although we believe that children should have the chance to express themselves and keep active, at Red Monkey Play, we also believe that they should be safe too. All of our products are designed in accordance with the latest safety regulations and we carry out a full health & safety check before we get started.

Not only that, but our products also carry a comprehensive guarantee so you can be sure that your pupils have a fun and safe space to enjoy themselves.
**Children’s Double Strength Challenger**
